

We Make Training Simple

The Workforce Center was established in 2013 to address the skill needs of the modern, fast-paced workplace. Powered by top-ranked Saint Louis University, the Workforce Center provides premier training solutions to corporations and individuals nationwide and is the largest technology training center in St. Louis. The Center offers a range of training topics, including **Cyber Security**, **Project Management**, **Agile**, **Analytics**, **Software Engineering**, and more than 250 **short courses**, SLU-issued **certificates**, and **certification bootcamps** annually. All courses are led by instructors who are industry professionals and bring real-world knowledge to the classroom, so you can learn from the experts.

WHAT TO EXPECT

At SLU’s Workforce Center, you can expect to receive top-notch continuing education and training. All programs are eligible to earn **Continuing Education Units (CEUs)** and some meet the criteria for **Professional Development Units (PDU)**s as well. Furthermore, all programs earn course completion certificates. Our **schedule** of courses is updated weekly to meet the demand of fast-changing workplaces.

DELIVERY

The Center offers day and night courses to fit the busy professional’s schedule. Day classes run consecutively and night classes meet 2 evenings a week, Central Time.

VIRTUAL LEARNING

Our live-online classrooms create an environment of connection and real-time participation. Classes meet through the top video-conferencing platforms and use a Learning Management System for a seamless experience.

DIGITAL BADGES

Digital badges enable data-rich recognition, communication, and achievement tracking. Students can earn a digital badge for any certificate program or certification bootcamp course taken at the Center.

“I love the live-online class format. I’ve taken other online technical classes – I think the SLU Workforce Center difference is the personal interaction, small classes, attentive and involved instructors who are currently in the industry.”
- Ali, former student

PROGRAMS TO MEET YOUR NEEDS
